EDUCATION

University of Chicago | Kenneth C. Griffin Department of Economics | Chicago, IL

Master of Arts in the Social Sciences with Concentration in Economics; GPA: 3.82/4.0, September 2024 - June 2025

Advanced Courses: Applied Econometrics (Booth PhD core, rank 1st in the exam), Empirical Analysis I (PhD core metrics), Market Design (2nd year PhD), Energy and Environmental Economics III (2nd year PhD), Topics in Labor Markets: Earnings and Employment (2nd year PhD), A Course in Experimental Economics (2nd year PhD), Mathematical Methods Camp (PhD level), Analysis in R^n II

Minzu University of China | School of Economics | Beijing, China

Bachelor of Arts in Economics (with honors); GPA: 91.8/100 (= US 3.89/4.0 based on WES), September 2020 - June 2024

Relevant Courses: Intermediate Macroeconomics, Intermediate Microeconomics, Mathematical Economics, Econometrics, Linear Algebra, Probability and Mathematical Statistics, Dynamic Optimization, Game Theory, Advanced Mathematics, Analysis of Economic Data (with Python), The Economics of Resources and Environment, Public Finance, Labor Economics, International Economics, Finance

Thesis: "Children quantity, parental health and the potential mechanisms"

The Hong Kong University of Science and Technology | Hong Kong SAR

Post-baccalaureate studies, Economics; January 2024 - May 2024

Advanced Courses: Quantitative Macroeconomics (PhD core macro)(audited), Convex and Nonconvex Optimization II (stats PhD course)(audited), Behavioral Economics and Public Policy (audited)

University of California, Berkeley | Berkeley, CA

Visiting Undergraduate Student; GPA: 3.89/4.0, January 2022 - May 2022

Relevant Courses: Industrial Organization (2nd year PhD), Development Economics, Concepts of Statistics

WORK IN PROGRESS

[Priced Out of Safety? Insurance Reform, Residential Sorting, and Climate Gentrification](#)

Invited External Presentation: [27th Annual CU Environmental and Resource Economics Workshop](#)

Internal Presentations: Harvard Graduate Student Workshop in Environmental Economics, Harvard-MIT Joint Econ Predoc Seminar, Harvard Financial Economics of Climate and Sustainability Reading Group

RESEARCH EXPERIENCE

- **Predoctoral Research Fellow at the Salata Institute at Harvard University:** July 2025 - Present

Advisors: Prof. Wolfram Schlenker, Prof. Charles A. Taylor, Harvard University

- Built the project's entire data infrastructure as sole RA: cleaned and harmonized individual-level US Census and ACS microdata (1990–2016, ≈ 4 million household heads) from IPUMS; developed crosswalks to resolve PUMA boundary changes across census decades, enabling consistent panel construction over $\approx 1,000$ geographic units; constructed bilateral origin–destination migration flow matrices and demographic-stratified datasets totaling over 100GB; ran PPML estimates and calculated Social Cost of Carbon
- Implemented the Poterba (1984) housing user-cost framework to convert self-reported home values into imputed rental equivalents and calculated after-tax income from NBER TAXSIM, used residential sorting models to recover willingness to pay for amenities
- Constructed datasets for multiple identification strategies including Bartik shift-share instruments, China shock instruments, historical migration networks, robot exposure measures, geographical distances and driving costs, and military placebo tests
- Produced all figures, descriptive statistics, and visualizations for the working paper and conference presentations, including publication-quality maps, scatter plots, and coefficient plots; authored the Data section, International Extension section and seven technical appendices of the manuscript; met weekly with faculty co-authors, contributing to research design discussions
- Used Google Earth Engine to obtain and processed satellite data for weather and climate; conducted time-series analysis and estimated Jordà local projections of yields on CO2 shocks to see how CO2 shock can impact agricultural output

Selected Work with Research Contribution:

- [Environmental Drivers of Agricultural Productivity Growth: CO₂ Fertilization of US Field Crops \(Charles Taylor & Wolfram Schlenker\)](#)
- A Hedonic Social Cost of Carbon: Evidence from US Migration (Tamma Carleton, Marco Tabellini, Charles A. Taylor, Guglielmo Zappala)

- **Empirical Research on Labor Market:** Research Assistant, January 2024 - May 2024

Advisor: Prof. C.Y. Kelvin Yuen, The Hong Kong University of Science and Technology

- Utilized Stata to measure treatment effects of minimum wage increase on employment rate for different types of workers using stacked DID method, developed event study graph to check parallel trend assumption
- Used wage-size premium method to estimate labor supply elasticity in several countries

- **The Occupational "Sticky Trap" of Digital Labor under Algorithm Control:** Independent Research, January 2022 - June 2023

Advisor: Prof. Jing Liu, Minzu University of China

- Conducted sampling design work by using the Probability-Proportional-to-Size Sampling method to select four districts from sixteen districts in Beijing and calculate the optimal sample size
 - Conducted 3-month field study and surveyed more than 200 individuals to know how digital labor feel about the "Sticky Trap" through questionnaires and in-depth interviews; Analyzed formation mechanism of "Sticky Trap" through qualitative research
 - Performed data cleaning and data analysis with Python & R, and used Structural Equation Model with R lavaan package to explore the relationship between variables
- **Empirical Research on Chinese Economic and Social Data:** Research Assistant, April 2022 - October 2022
Advisor: Prof. Zhaopeng Frank Qu, Nanjing University
 - Collected data and indicators of economic development such as GDP and Gini Coefficient and integrated databases, performing data cleaning and conducting data analysis and visualization with Stata and R maps & ggplot2
 - Developed novel data processing framework for a recently released radiance dataset known as VNP46A2, part of NASA's Black Marble suite of Nightlight (NTL) products, utilizing QGIS and Python to calculate zonal economic statistics over multiple rasters using NTL data

PROFESSIONAL EXPERIENCE

- **GUANGFA Securities Co., Ltd:** Equity Research Analyst Intern in TMT team, October 2023 - December 2023
- **Ipsos Consulting Company:** Assistant Analyst Intern in Quantitative Research Department, June 2022 - August 2022

TEACHING EXPERIENCE

- **Applied Econometrics (with Stata), Minzu University of China:** Teaching Assistant for Prof. Yu Bai, September 2023 - January 2024

ADDITIONAL WORKSHOPS & CONFERENCES

2026 Harvard Graduate Student Workshop in Environmental Economics (egg timer), Harvard Reading Group in Econometrics and Development, Harvard Reading group in Political Economics, Harvard Urban Mobility and Climate Change Conference*, NBER EEE Spring Meeting*, Northeast Workshop on Energy Policy and Environmental Economics*, NBER Climate Finance*

2025 UChicago IO in Retrospect Conference*, UChicago BFI Micro and Macro Foundations of Labor Markets Conference*, NBER Climate Finance*, NBER Risk and Risk Management in the Agricultural Economy*, Harvard Salata Workshop on the Economics and Policy of Electric Transportation Charging Infrastructure*

2024 UChicago BFI Women in Empirical Microeconomics Conference*, UChicago MA Econ Internal Workshop, CUHK RPg Students Summer Workshop*

2023 China Economics of Health & Aging Summer Camp, Challenge Cup Academic Forum for College Students, Interdisciplinary Academic Forum for College Students (University of Chinese Academy of Social Sciences)

*denotes attendee, others denotes presenter

FELLOWSHIP & AWARDS

Harvard Predoctoral Fellowship, Harvard University, 2025-2027

Gargoyle Research Scholarship, University of Chicago, 2024-2025

M.A. Director's Scholarship (merit-based), University of Chicago, 2024-2025

Social Sciences Promise Scholarship, University of Chicago, 2024-2025

Outstanding Winner in Challenge Cup Academic Competition (Top 0.1%), Ministry of Education (China), 2023

Hsiao-tung Fei Award for Outstanding Academic Achievement (Top 0.5%), Minzu University of China, 2023

Honorable Mention in International Interdisciplinary Contest In Modeling (ICM), 2023

Scholarship to Visit Top Universities in the World, Minzu University of China, 2022

Academic Distinction Scholarship (×3), Minzu University of China, 2020-2024

Innovation Class for Top Talents in Economics (≈ honors program)(selected 35 out of 600+), Minzu University of China, 2020-2024

SKILLS

- **Programming:** R, Stata, Julia, Python, MATLAB, $\LaTeX$, Markdown, Git, Google Earth Engine, cluster computing
- **Languages:** English (fluent), Mandarin Chinese (native)

SERVICES & ACTIVITIES

2026 Volunteer Panelist for UChicago MA Econ Predoc Application Workshop; Volunteer for Harvard Urban Mobility and Climate Change Conference; Harvard Economics for Equity Breakfast

2025 Volunteer Panelist for UW-Madison Women in Economics Group

2024 Guzheng Player (Chinese Zither), MUC College Orchestra

2021-2023 Mentee & Mentor for the First Gen College Student Union; MUC College Debate Team
